Dr. Lauren R. Donaldson
Applied Fisheries Laboratory
University of Washington
Seattle, Washington

Dear Doctor Donaldson:

We have received the two copies of UWFL Report No. 22 with the program and schedule for the resurvey of the Bikini-Eniwetok Areas. We have transmitted one copy of the report to Commander Pinney of the Division of Military Application and have asked him to proceed with appropriate arrangements for your trip.

We were very glad that Dr. Tuttle could spend a couple of days visiting with you and members of your staff. His report has been very helpful to us. I hope to get out to the west coast sometime during the summer and will make every effort to schedule my trip so as to visit the Applied Fisheries Laboratory at a time that does not conflict with your trip to the Pacific.

We shall look forward to receiving the report of the 1949 expedition. I hope to have an opportunity to study this rather carefully before visiting with you later this summer.

Sincerely yours,

Paul B. Pearson
Chief, Biology Branch
Division of Biology and Medicine
