Dr. Shields Warren, Director
Division of Biology and Medicine
U. S. Atomic Energy Commission
1901 Constitution Avenue
Washington 25, D. C.

This document consists of 1 pages.
No. 2 of 5 copies. Series a

Dear Dr. Warren:

Enclosed you will find a copy of a tentative proposal for the biological experiments of the 1951 Field Tests of the atomic weapons. Only tests are proposed which show promise of producing positive useful data. All test subjects recommended have been utilized experimentally to such extents as to make available sufficient quantitative data to establish base line information concerning them. I am sending you copies of this document, in care of my secretary, Mrs. Betty Hauser at Los Alamos, New Mexico. A carbon copy of this letter is being sent to your Washington office in the hope that you will receive it prior to your departure to Los Alamos.

I trust that this proposal will form the basis of some discussion with the Advisory Committee of the Division of Biology and Medicine. I am very sorry that circumstances prevent my being able to participate in this discussion.

With warmest personal regards to you, I remain,

Sincerely yours,

Franklin C. McLean, M.D.
Medical Director
