Tuesday March 30th

Dear Nick -

I'm back in the U.S., as you can see, and vacationing with Lillian here for a few days before returning to N.Y.

I have samples of plasma from 6 persons which I shall send to you as soon as I get back to my lab. I saved the tritiated water and the 1 ml pipette. Do you want me to send these on to you also?

The trip was good and I suppose successful. I hope this finds Jean & you well

Best regards

Leo
