PTS 32627 dated January 26, 1949
PTS 32628 dated January 26, 1949

This memo is to advise that the writer and Gordon Pottengill have returned from the Pacific Theater having completed our duties at that place.

In as much as it was necessary to leave the material listed on the reference Property Transfer slips at Eniwetok Island, it now becomes necessary to bring to your attention my status and the location of the material involved. To the best of my knowledge, Dr. W. M. Ray, an Oakridge, Tenn. employee, is distributing and storing the bulk of this equipment. All of the material involved is assigned to group property man John R. Wood, J-Division.

It is accordingly requested that necessary action be taken by responsible persons to clear and reassign all of the material involved.
