

OCRWM's Portal Project

**How Can OCRWM's Portal
Support the DOE Lessons
Learned Community?**

Sarah Stall

Bill Rue

Booz-Allen Perspective ...

... Knowledge Management is:

- **An academic discipline**
- **What's being taught at universities**
- **What's being written about by popular authors**
- **An area of study - a field of endeavor**

Therefore, it's a body of knowledge about knowledge!

Booz-Allen Perspective ...

Office of Civilian Radioactive Waste Management

OCRWM

... Knowledge Integration is:

- The art of implementing KM
- Putting knowledge into action (knowledge transfer)
- Choosing the right pieces - focus on business problems and evaluating progress against the original measure of success.

Therefore, it getting results from Knowledge Management!

Common frustrations ...

- I have too much information BUT not enough information to make a decision.**
- I don't know who else can I work with. Surely there must be someone looking at problems similar to mine. Surely someone has tackled this problem before.**
- If the stuff I am interested in would just come to me automatically.**
- If I could just have the information I need in an organized fashion.**

Typical Components...

... of a Knowledge Management Program:

Leadership

Culture

Process

Information Technology

Typical Components...
