A typed cy. of these comments attached to yellow cy of ltr to Dr. Hirschfeld

Notes and Suggestions:

403854

Chapter 15

15.8 line 8 - add - "just as some individuals are more susceptible to sunburn than others"

15.9 - and elsewhere - change "it will" to "it would"

R

~~15.12 line 7 - "emitters" or "sources"?~~

15.37 - Isn't the first sentence wrong in its meaning? Isn't "no significant etc" what is desired?

Chapt 16 - no suggestions.

DEPARTMENT OF ENERGY DECLASSIFICATION REVIEW

REVIEWER (ADD): NAME: ML KOLBAY DATE: 11/9/94	

Chapt 17 -

17.8 - spelling

17.15 - Is recovery time for mind single of "a few hours" correct?

17.36 - Strontium and Barium carbonates and phosphates are very insoluble. Iodides are soluble.

17.41 - last sentence "At Bikini etc -" seems to be a non-sequitur. Perhaps it should be ~~given~~ expanded and given a separate par

17.43 Is a word about prevention of infection needed?

17.44 - Form of sentence questionable. I suggest -
"Two general forms of ... are encountered etc."
"An understanding of both forms of hazards is essential to [illegible] etc."

17.47 - Some changes in punctuation needed.

Chapter 17 - continued

17.62 - Something left out at the end of the first line.

17.67 - Should this begin with No or Few?

17.69 - I like "over emphasized" and "under emphasized" rather than over-emphasized.

17.72 - line 6 - Should not this read X-Ray pictures or films?

17.82 - Item c - Emphasis?

17.83 - ~~Is~~ Should this be acute radiation exposure?

I think that a concluding paragraph is needed. The chapter ends too abruptly.
