RE: Lighting Fixture Standards for Bldg. #419 - Elmer Dwg. #3333-EE-3
DATE: October 9, 1953

405830

Reference your telephone conversation with F. A. Blackburn of October 8, 1953 on the subject lighting standards.

Lighting standards as shown on the subject Drawing were purchased from the Columbia Steel Co. Delivery of the Standards was unsatisfactory for this project.

At your suggestion in the above telephone conversation the subject Drawing is being revised to show field fabrication of these lighting standards utilizing a portion of the 4 1/2" O.D. pipe procured for the deleted 115 stations.
