Subject: Soil Samples

BEST COPY AVAILABLE

Dear Sir:

Upon shipping our first set of soil from the jobsite to Dames & Moore's Riverside laboratory, the Department of Agriculture, Beltsville, approved the soil for the Zone of Interest. It is expected that the soil is destroyed as soon as it is analyzed by Dames & Moore.

We are making the assumption that this ruling can mean all tests to be made on the soil and are expecting that Mr. Robert E. Campbell will instruct Mr. Spence and Street that upon completion of their chemical analysis they will destroy the soil.

Dames & Moore will have completed their physical measurements on the samples in approximately four months.

Very truly yours,

HOLMES & NARVER, INC.
