SUBJECT: 88[illegible]

RE: Additional Hospital Space - Site Tare

DATE: 23 March 1953

Mr. Spain in conversation before [illegible] departure authorized eight additional beds on Site Tare. [illegible] new thinking in regards that jobsite, the following plans [illegible] with specifications.

1. Plans submitted [illegible] trusses.

2. Whatever the final plan, because [illegible] increased personnel at the site, the present storage facilities [illegible] totally inadequate and, therefore, the new structure must [illegible] room.

3. Whether joined to or adjacent [illegible] present dispensary, toilet facilities will be necessary because [illegible] of the building. A minimum of a utility sink and [illegible] provided and additional toilet facilities would be welcome.

4. Scuttlebutt will be necessary.

5. Eight [illegible] hospital beds [illegible] complete with mattresses.

6. Building must be completely [illegible] including doors.

7. Shutters [illegible] stoppers [illegible] wooden stoppers.

8. Concrete [illegible] should be increased to a 6' x 10' apron.

9. A building attached to the [illegible] probably preferable, but depends on available space.

10. One other [illegible] the present building, and start afresh with plans originally [illegible] bed dispensary, and re-locate to a more [illegible] would be a reasonable re-use of the present building.

CCC:jd
Encl.: Two plans.
