

Approximately 16,000 Department of Energy (DOE) Federal employees are dispersed throughout DOE; the power marketing administrations, the energy technology centers, Headquarters, operation and field offices.

Employees are protected under the Federal Employees' Occupational Safety and Health (FEOSH) programs which are mandated by 29 CFR Part 1960, Section 19 of the Occupational Safety and Health Act, and Executive Order 12196. DOE's FEOSH program requirements are contained in DOE Orders 440.1B, 341.1A, and DOE Order 442.1A.

The DOE Office of Health, Safety and Security (HSS) FEOSH program website is your connection to current safety and health news and issues, Departmental special emphasis initiatives, upcoming activities, resources, contacts, and more.

The FEOSH program supports line management through the transfer of pertinent information, guidance, technical expertise, assistance, and program evaluation tools. The FEOSH program operates successfully through continued open communication and effective partnerships among management, professionals implementing FEOSH programs, and labor organizations. Together, we are fundamentally committed to activities that:

- (1) ensure the safety and health of DOE Federal employees;
- (2) maintain a strong partnership with Departmental FEOSH programs, labor organizations, and other Federal agencies;
- (3) recognize and respond to safety and health concerns;
- (4) focus on value-added activities;
- (5) conserve Departmental resources; and
- (6) build on the experience of others.

Please contact the HSS InfoCenter for additional information at 301-903-8358 or 1-800-473-4375.

Background

The Department of Energy (DOE) Office of Health, Safety and Security (HSS) Federal Employee Occupational Safety and Health (FEOSH) program provides resources for guidance, and technical assistance to Departmental FEOSH programs. Working in partnership with field personnel, HSS also develops special emphasis, safety, and health initiatives designed to be pro-active and preventative in nature.

Visit Our Website

The DOE HSS FEOSH website provides the following:

- Publications, reports, and current events of interest to managers and employees.
- Access to special program features such as:
 - training;
 - emergency preparedness;
 - safety bulletins;
 - DOE directives; and
 - special reports.
- FEOSH points of contact.
- Employee rights and responsibilities.
- Process for filing a safety and health concern.

Key Features

• *Legal Basis*

- OSH Act of 1970
- Executive Order 12196
- 10 CFR 851
- DOE Order 440.1B
- DOE Order 341.1A

• *Publications & Reports*

- Employee rights under 29 CFR Part 1960
- FEOSH handbook
- Quarterly DOE injury/illness statistics
- FEOSH program fact sheet
- FEOSH pamphlet
- FEOSH poster

• *Related Sites—Resource Library*

- Consumer Product Safety Commission
- Department of Labor (DOL)
- Department of Transportation (DOT)
- Environmental Protection Agency (EPA)
- National Institute for Occupational Safety and Health (NIOSH)
- National Safety Council (NSC)
- Occupational Safety and Health Administration (OSHA)
- American National Standards Institute (ANSI)
- American Society of Safety Engineers (ASSE)

• *Special Programs*

- Events and conferences
- Workers Compensation
- Online training
- Ergonomics awareness
- How-to information center

• *What's New*

- Information and current events affecting the FEOSH program
- Site activities and events

It's all on the web at:
