PROPOSED REPLY TO MISS SYLVIA FLAPINGER

SYMBOL: BME:HCB

I am returning your proposed reply to Miss Sylvia Flapinger. I believe that our concurrence must be conditioned upon a change in a sentence in the second paragraph. The sentence now reads: "None of the men experienced any symptoms of radiation illness and medical observations to date do not indicate that any harm resulted from the exposure." I feel that this sentence should read: "None of the men experienced any acute symptoms of radiation illness and medical observations to date do not indicate that any permanent harm resulted from the exposure."

Enclosure  
Ltr to Miss Sylvia Flapinger  
Ltr dtd 6/30 frn Miss Flapinger to MSalisbury
