

STANDARD FORM NO. 64

*Office Memorandum* • UNITED STATES GOVERNMENT

TO : C. L. Dunham, Assistant Director, Division of Biology and Medicine, Washington DATE: September 10, 1951

FROM : John H. Harley, Chief, Analytical Branch, Health and Safety Laboratory, NYOO *John Harley*

SUBJECT: FUTURE SAMPLING IN THE MARSHALLS FOR HASTI

SYMBOL: HSA/JHH

The NROD-NMRI group furnished us with some samples of soil and vegetation from Rongelap, Utriik and Eniola following the last series. These samples are being analyzed and we would like to obtain further sets as part of our trace element program. We would like to know if such operations would be possible under the program setup at DEM and what arrangements we should make for having such samples taken and delivered to us in New York.
