Applied Fisheries Laboratory

February 19, 1949

Dr. Shields Warren, Director  
Division of Biology and Medicine  
U. S. Atomic Energy Commission  
Washington 25, D. C.

Dear Dr. Warren:

A copy of the "Bikini Radiobiological Resurvey of 1948" is being forwarded to you. This report should form the basis for a number of exploratory and evaluation studies we hope can be consummated on the data obtained during the field studies.

Your frank criticisms and suggestions on this report and future studies will be appreciated.

Dr. Raymond B. Allen, President of the University of Washington, expects to be in Washington, D. C., in the near future and mentioned the possibility of calling at your office to discuss the University's participation in the Atomic Energy Commission's program.

Sincerely yours,

*Lauren R. Donaldson*
