February 2, 1979

Dr. Hugh Pratt, Medical Department  
Brookhaven National Laboratories  
Upton, New York 11973

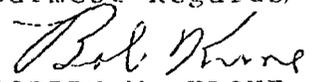

Dear Hugh,

I discussed your interest in an interdisciplinary team from a University acting as a sub-contractor to Brookhaven with Dr. John V. Grimaldi, Director of Degree Programs in our Institute of Safety and Systems Management. An interesting linkage is that he, and the USC Medical School, are already in discussions with U.C. Irvine for establishment of a medical systems delivery unit, with research associated. He intends to contact you upon your return from Kwajalein (about end February) and arrange a visit to Brookhaven for some exploratory discussions.

My January 29th memo, copy attached, was used as a vehicle for my discussion with him. I am providing you a copy, in the blind, in the event that I may have some inaccuracies and you can correct them on your initial contact with Dr. Grimaldi. If you wanted to contact him, his number at the University is 213/741-6182 or 6384. My contact number in California until March 26th when Sue and I leave for four months in Korea is 714/795-3403. We will be in Reno (my family) for some of the time at 702/323-7755.

I have both a professional and personal interest in the development of your program, Hugh, and would appreciate being put on your mailing list for relevant information. If my schedule with USC could be worked out, Sue and I would enjoy direct participation as a Systems Analyst-Medical Administrator team - but that would have to be under the auspices of the Institute of Safety and Systems Management.

Warmest Regards,

  
ROBERT M. KRONE, Ph.D.  
Assistant Professor of  
Systems Management
