PROPOSED LIKTANUR II USERS PLANNING GROUP (LUPG) MEETING

In our letter dated January 5, 1978 we suggested February 15 as a firm date for our users meeting, unless unusual circumstances forced a change. Those unusual circumstances set upon us in the form of gale force winds which delayed the Likatanur II's departure from Hawaii to Kwajalein until January 17. This in turn delays Mission No. 1 and causes us to reschedule the LUPG meeting.

The new proposed date and time is Thursday February 22, 8:00am at Livermore. Dr. Bill Robison suggests that the Holiday Inn offers very convenient accomodations and unless you make your own arrangements, his secretary will make reservations for you. He also asks that you let him know whether or not you plan to attend so he can arrange clearances into the building. Please include your date of birth and Social Security number. His address is -

Lawrence Livermore Laboratory
P. O. Box 808
Livermore, California 94550

and his phone number is -

FTS - 532-3884

Commercial (415) 422-3884

We hope you plan to participate and look forward to hearing from you.

Sincerely,

[Handwritten Signature]
W. J. Stanley
Director
