BNL FUND FUNDING FY 1978 (DR. CONARD)

In a June 8, 1978 conversation with Rick Betteridge, NV, the updated financial plan to be completed and sent here the end of June will contain an additional \$25,000 for this program, financed out of an overall bio-med underrun. In addition it will contain another \$10,000 to be obtained from HQ for a total of \$90,000.

The \$10,000 so long promised by HQ was not officially asked for by NV because they thought it could be handled within the \$25,000 underrun. With the heavy BNL expenditures and accruals to date, and with about 10 patients coming to Tripler this month for thyroid surgery it has become apparent that both the \$25,000 and the \$10,000 will be necessary to fund Dr. Conard's program commitments through FY 1978.
