Toshio Fujikura, M.D.
 Chief of Pathology
 Radiation Effects Research Foundation
 5-2, Hijiyama Park, Hiroshima 730
 Japan

Dear Doctor Fujikura:

I promised to send you the name of the pathologist at University of California at Los Angeles who may be of some help to you in finding a pathologist to work at RERF. His name is Donald E. Paglia, M.D., Division of Surgical Pathology, UCLA Center for the Health Sciences, Los Angeles, California 90024. I have let him know that you will be contacting him.

In addition, I mentioned to you two Japanese who are working with me at the present time. They are both Japanese-trained pathologists, bright, hard-working, innovative, and productive. They are: Tohru Inoue, M.D., from the Metropolitan Geriatric Hospital, Tokyo, and Kenichi Harigaya, M.D., from the Department of Pathology, Keio University, Tokyo. They will both be at Brookhaven until 30 September of this year. If our funding situation allowed, I would like to retain them for another year if they are interested and able to do so. Do not hesitate to contact them directly if you would like to explore the possibility as to whether they would be interested in a post at RERF.

I look forward to seeing you again next year in Hiroshima.

Sincerely yours,

Eugene P. Cronkite, M.D.
