University of California  
Los Alamos Scientific Laboratory  
P. O. Box 1663  
Los Alamos, New Mexico

Attention: Henry R. Hoyt, Assistant Director for Administration

Subject: PPG COMPENSATION PRACTICES

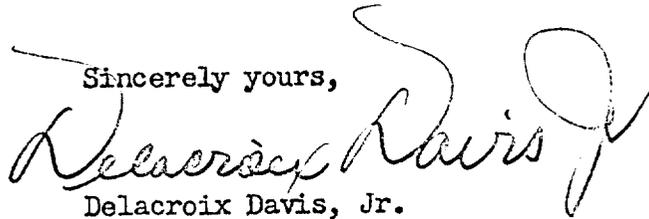

Gentlemen:

Reference is made to your letter of June 15, 1964 transmitting the LASL's proposed policy relating to compensation practices at PPG. The provisions of the proposal have been approved for application during upcoming tests.

It is our understanding that the "average month method" of computing basic salary for exempt employees will be considered for use in lieu of the method now identified in Appendix A. Please advise if this assumption is correct.

The provisions of the proposal relating to the extended work week will naturally not apply until the effective date of the beginning of the operational period.

Sincerely yours,

Delacroix Davis, Jr.  
Assistant Area Manager for  
Administration and Construction
