Dr. Charles Sondhaus
Biological Station
Montana State University
Bigfork, Montana

Dear Chuck:

I felt pleased to read your letter and to know that you enjoy the scenery in Montana. I suppose you did have a lot of work the first week to get ready for the course, but I am sure that by now you have gotten to the point where everything is under control. I hope that your family arrived safely.

I have signed the contract as Dr. Harvey wrote it to me, and everything is in order. We plan to arrive on July 31.

Vick Bond called me. You may know that I am on a committee of the National Bureau of Standards for RBE, and they will have a meeting sometime in August or September. I suggested that instead of me perhaps you would be willing to attend this meeting. It will also give you a chance to spend a few days at Brookhaven. Vic Bond accepted this, but it will still depend on John Lawrence approving the travel funds. Would you please let us know if you are willing to go and write directly to Bond regarding the date?

With kindest regards,

Sincerely yours,

Cornelius A. Tobias
Professor of Medical Physics
