Contract No. AT-(29-2)-20**

21 January 1958

Dr. Lauren Donaldson
Director, Applied Fisheries Laboratory
University of Washington
Seattle 5, Washington

**Subject: SHIP SUPPORT FOR APPLIED FISHERIES LABORATORY
BIOMEDICAL PROGRAM**

Dear Dr. Donaldson:

The Director, Pacific Operations Division, ALO, has concurred in the recommendations set forth in our letter dated 10 January 1958 relative to integrating the ship requirements of the Marine Biological Program with the schedule of the LSM 444 currently being operated by Holmes & Narver, Inc.

Present planning indicates that the schedule for the vessel would be most pliable after mid-August 1958. Preliminary information concerning your anticipated requirements would be appreciated at the earliest possible date.

The recommendation has been made by the Director, Pacific Operations Division that your Laboratory submit a formal request to utilize the vessel through the Division of Biology and Medicine, U. S. Atomic Energy Commission.

Sincerely yours,

HOLMES & NARVER, INC.
