TERMINATION OF RAD-SAFE OPERATIONS AT ENIWETOK

REFERENCE: J-9

A copy of the report to Cooper on the latest survey, by Asby and White, confirming the findings of Cooney and Asby, has been submitted to you.

In our report to Cooper, it was stated that it had been decided to terminate monitoring. This statement was made to place on record the fact that we were then (11 May) pulling out.

Cooper asked me to transmit to you his desire for a formal statement by you authorizing the termination of Rad-Safety operations there.
