

## Office Memorandum • UNITED STATES GOVERNMENT

TO : H. C. Brown

DATE: July 7, 1953

FROM : *fw* F. Western*(484)*SUBJECT: REQUEST FROM J. G. TERRILL, JR. FOR FEASIBILITY REPORT, CONTINENTAL  
ATOMIC TESTS

Terrill telephoned to say that he is writing a report on the participation of the PHS in the 1953 test program and felt that he had occasion to quote two safety criteria: 3.9 r/13 weeks and 1  $\mu$ c/cubic meter. However, he has these numbers only on hearsay, and feels that he would like to see the feasibility report in which they are given. I told him I would pass on the request to appropriate personnel.

Please advise.
