Dear Dr. Hollaender:

Thank you for your letter of January 26 and the invitation to open the Sixth Annual Biology Research Conference at the Oak Ridge National Laboratory on April 20 and 21.

I had very much hoped to be able to attend the conference, but now find that things have conspired against me to such an extent as to preclude all possibilities of my getting there. However, since Shields Warren is to chair a session, and several of our Biology Branch people will be there, I shall content myself with the knowledge of at least getting second-hand reports of the session.

All good wishes for a profitable meeting.

Sincerely yours,

John C. Eager, M.D.
Director
Division of Biology and Medicine
