SUBJECT: Operation Greenhouse Pathologic Material.

TO: Chief, Division of Biology and Medicine
Atomic Energy Commission
Washington 25, D. C.

1. Pathologic materials, i.e., wet tissues, paraffin blocks, and slides, obtained at Operation Greenhouse, have been treated as classified materials and kept in a safe at the Armed Forces Institute of Pathology to this date.

2. It is desired to accession this material and place it in the files of the Atomic Energy Section at the AFIP, and thus make it available for special studies by certain qualified individuals. All classified data pertaining to these specimens will continue to be treated as such until such time as they are ordered declassified by the Atomic Energy Commission. All publications arising from studies of these materials will be cleared through your office.

3. Your concurrence in this matter is requested.
