MEMORANDUM FOR CHAIRMAN SEABORG
Deputy

THROUGH GENERAL MANAGER *MSB* APR 20 1964

SUBJECT: MEDICAL STATUS OF MARSHALLESE ISLANDS, MARCH 1964.

It is a pleasure to report that the just concluded annual medical survey of the Marshallese natives exposed to fallout from the March 1, 1954, shot revealed no problems attributable to their radiation history.

The attached preliminary record, prepared by Drs. Conard and Hicking, provides the significant details of the observations. A more complete record of the observations and conclusions will be published by Brookhaven National Laboratory toward the end of the summer.

C. L. Dunham, M.D.
Director
Division of Biology and Medicine
