DATE: March 3, 1952

FROM : Shields Warren *SW*

SUBJECT: VISIT ON FEBRUARY 29, 1952 WITH PROF. SAGE, MIT

BM:SW

*383*

On February 29 I met with Professor Sage, of the Department of Industrial Cooperation, M.I.T., relative to M.I.T.'s making a special study on the Gabriel Report. After a full review of available personnel it looked as though Professor ~~Hoter~~ <sup>Houghton</sup>, in charge of the Meteorology Department, who has a very sound background in mathematics, might well be the leader of the study, and that other adequate personnel could be obtained. This would be undertaken as a study during the summer, envisaged as of six or eight weeks' duration and participation of six to ten M.I.T. and other faculty members. Professor Sage is to explore this further and will have an answer within approximately a week's time.

It was felt that with the data now available and that which would become available by the Spring test, a very worthy contribution might well be made. This matter was discussed with Mr. W. J. Williams, the Deputy General Manager, AEC, and he gave his approval.
