BIKINI LAWSUIT FILE

Telephone conversation with Roger Ray

Dept. of Justice lawyer who will represent us in the case is Floyd France. He is the head of the Litigation Division and a real "human". He was essential in convincing the die-hards of Dept. of Interior and DOS ERDA that the obligation with the Bikini people is a moral one and that we are being sued for the treatment of these people over the last 30 years. This conversation took place in the Washington Meeting Oct. 18-21. The feelings of DOI prior to this meeting is that we have essentially "paid off" the Bikini people with the exgratia payment and that we don't owe them anything more.
