San Francisco, California 94104

Dear Mr. Garcia:

POLICY NO. 80-9940006

As we discussed on the telephone earlier this week, Dr. Guy S. Haywood will be joining Holmes & Narver, Inc., as a volunteer to assist in a radiological survey at Bikini Atoll. As indicated on the enclosed letter from the Energy Research and Development Administration (formerly the Atomic Energy Commission), it is desired that liability insurance coverage, including malpractice coverage, be provided to Dr. Haywood under the provisions of our existing policy.

We would appreciate your initiating whatever action is required to provide this coverage. If an endorsement to the policy is required, please forward a copy to this office. If no endorsement is required, your written confirmation would be appreciated.

Very truly yours,

HOLMES & NARVER, INC.
