Dr. John R. Totter, Director
 Division of Biology and Medicine, Wash., D. C.

BIKINI SURVEY REPORT

In connection with your wire to me dated June 14, 1968 concerning the recent radiological survey of Bikini, it is my understanding that the survey data has been evaluated by an ad hoc committee and their conclusions and recommendations have been approved by the Commission.

If my understanding is correct, I would appreciate you furnishing me a copy of the survey report and also a copy of the committee's conclusions and recommendations.
