SUBJECT: Pathologic Materials Operation Greenhouse

TO: Director
Division of Biology & Medicine
Atomic Energy Commission
Washington 25, D. C.

1. The pathologic material of Operation Greenhouse is being accessioned in the clear files of this institution. Classified data pertaining to these specimens is being withheld. However, for medical purposes it is important to have in these files the dosage of ionizing radiation received by the tissues.

2. Permission is hereby requested to include the estimated dosage of ionizing radiation with the pathologic material. No other classified information would be included, thus making it impossible for anyone studying these materials to correlate dose and distance.
