Dear Colonel McMillen:

ASSIGNMENT OF SPACE AT BUILDING T-3225, HICKAM AFB

This is in response to your letter dated December 15, 1999, in which you requested and provided the Department of Energy with your requirements, for space in our Honolulu facility, under the terms of our current Memorandum of Understanding.

I have reviewed your request with our contractor, Bechtel Nevada (BN), and I am pleased to inform you that the DOE will be able to fulfill your support requirements at Building 3225. Please advise your staff to contact and work out the details of the requirements and the relocation of your staff, with our BN Project Manager, Mr. Lance Yamaguchi at (808) 422-9211.

We look forward to a continued and productive, program support relationship with USAKA and its personnel.

Sincerely yours,
