

FTCP Agent Responses as of July 23, 2009 on SSO Qualification Standard Path Forward

All Agents were sent a White Paper June 19 for 'comment' (The intention was to get their vote on proposals, but some only commented on the text of the paper). All were sent the paper with a specific request for their vote before the July 15 Teleconference. The table below lists responses. Responses from a person speaking for the Agent are recorded as the Agent's response. Responses from others at the organization note the actual responder.

In the Preference block, the entries mean:

- P1= Require GTB, a Technical FAQs, and Site Specific; oversight-related competencies in the SSO Program Technical Standard
- A1 Require GTB, new SSO FAQs, Site Specific
- A2= Allow Either 1 or 2; Develop both SSO FAQs and Oversight competencies for Program Standard
- A dash indicates no response
