

United States Government

Department of Energy

memorandum

Office of River Protection

DATE: October 31, 2005

REPLY TO
ATTN OF: 05-ORP- 052

SUBJECT: DESIGNATION OF DEPARTMENTAL CHAMPIONS FOR THE CORPORATE
TECHNICAL LEADERSHIP DEVELOPMENT PROGRAM

TO: Distribution (see attached)

In response to Defense Nuclear Facilities Safety Board (DNFSB) Recommendation 2004-1, *Oversight of Complex, High-Hazard Nuclear Operations*, the Department, through the Federal Technical Capability Panel, undertook an initiative to reestablish the corporate Technical Leadership Development Program. The first step in this effort is to establish a corporate champion and line champions from within the National Nuclear Security Administration and the Energy, Science and Environmental organizations. These champions will be responsible for coordinating the Department's efforts in evaluating the efficacy of past DOE intern programs and determining the Department's path forward in assuring that its needs for future technical leaders are efficiently met. The following individuals have been selected based upon their contributions in related efforts and their desire to establish a model program that will serve DOE well into the future:

Corporate Champion:

Mr. Ray Hardwick, Deputy Assistant Secretary, Office of Facility Safety, EH-2

Line Champions:

- Mr. Frank Russo, Senior Advisor for Environment, Safety and Health, NA-1
- Ms. Diane Cochran, Director, Office of Strategic Imperatives, EM-41
- Mr. Dennis Miotla, Deputy Director for Nuclear Operations, NE-2.3
- Ms. Leah Dever, Associate Director for Laboratory and Infrastructure, SC-31

If you have any questions regarding this delegation, please contact me, (509) 376-6677, or Ray Hardwick, EH-2, (301) 903-4439.

Roy J. Schepens, Chairman
Federal Technical Capability Panel
