## What is Green Purchasing?

Spring 2005 v1

Awareness Newsletter

**Green Purchasing** is buying products, materials and services that have a reduced effect on our health and our environment. This means considering if the product...

- Contains recycled material,
- Takes less energy to run,
- Has less packaging, or
- Is it manufactured locally?

Less waste means **more money** for other projects!

Read more about why [buying Green at Sandia](#) is good!

*If you're not buying recycled, then you're not recycling!*

Example of the Procurement Card electronic awareness newsletter

10. Indoor Air Quality:

- a. Carpet: shall be only those certified with the CRI IAQ Carpet Testing Program Green Label, or tested for compliance to meet the CRI IAQ Carpet Testing Program requirements and criteria.
- b. Adhesive: shall be only those certified with the CRI IAQ Adhesive Testing Program Green Label or tested for compliance to meet the CRI IAQ Adhesive Testing Program requirements and criteria.
- c. All products (carpet, cushion and adhesives) from current production must be retested on a quarterly basis to ensure continuing compliance with CRI IAQ Test Program requirements.

C. Material Requirements:

1. Pile Fiber Type: 100 percent continuous filament nylon, Type 6 or Type 6,6
2. Backing Materials:
  - a. Primary Backing: 100 percent synthetic materials.
