

BWXT Y-12 Environmental Management System

Significant Environmental Aspects
are carefully controlled to minimize or eliminate impacts to the environment

BWXT Y-12 is proud of its site. Our actions and the care we take of our surroundings should reflect that pride. As with any effort, the success relies upon individuals taking responsibility. You are encouraged to keep your work area clean and neat, and to help the Y-12 PrYde Team identify and address any common areas that needs attention.
