

# P2 & Technology Working Together at SRS

**Greg Rudy, SRS Site Manager, is briefed on use of Bartlett Services Super Sleever containment equipment technology at the SRS 2001 Earth Day celebration jointly sponsored by P2 & TD.**

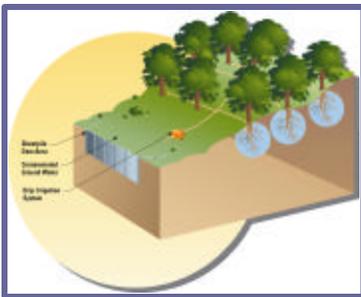

ISOCS used ensure waste is accurately classified for disposal.

Polyurea Spray coating ensures long life for CA recovery efforts

3-M Empore and Graver/Selion Ion-Exchange system treats water in-place, >\$6 million saved

Phytoremediation provides for low environment impact and long-term, low-cost, operations & maintenance

Waste cuber/extruder converts sanitary waste to boiler fuel, >\$250K/yr saved

Remote-operated Keibler shear & size reducer allows for improved waste segregation and packaging
